RE: Community petition about Project PD13-039

Dear Mr. Horwedel:

This letter includes the pages of a petition signed by 114 residents of Alviso who unanimously agree with the statement, "We the undersigned, having an interest in the [PD13-039] development project, request an alternate building plan that has no loading dock facing the residential neighborhoods of Alviso." That should be viewed as a minimum common request but not the sole request of residents.

This illustrates the great concern felt by the community regarding the noise of large trucks that would undoubtedly be heard if the plan currently proposed by Trammel Crow was built. We think that our request is reasonable. Please give it due consideration in your deliberations on this matter.

Regards,

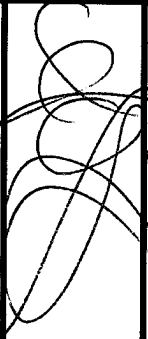

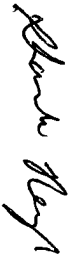

Jonah Probell

Jonah Probell
Community Representative
Alviso Neighborhood Group

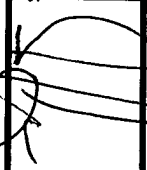

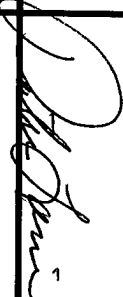

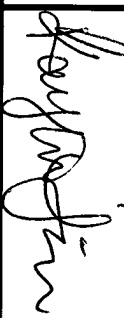

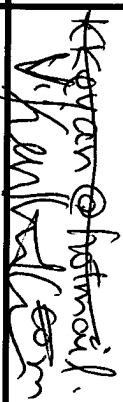

We the undersigned, having an interest in the Midpoint at 237 development project, request an alternate building plan that has no loading dock facing the residential neighborhoods of Alviso.
